RESIDENTIAL SUBMITTAL PROGRAM

AHRI SYSTEM MATCH & SUBMITTAL TOOL

Not only do you have access to research all your needed AHRI certifications, you can also build your own residential submittals right on your dealer website. Both of these valuable tools will set you apart from the competition, building even greater reliability and credibility for your HVAC business. As with all equipment manufacturers complying with DOE efficiency regulations, the system has to meet AHRI certification to qualify for the 10-year warranty. By presenting the AHRI certificate and submittal package to your homeowner when quoting a job, you will be providing superior service and building a life-long business relationship. Also may be accessed from www.alliedratings.com

FAST ACCESS FOR AHRI CERTIFICATIONS!
