

WARRANTY REGISTRATION

*It's more than
just a parts warranty.*

It's a customer courtesy.

Handling product registration on your customer's behalf may seem like a small gesture, but the benefits can be substantial to you, your customer, and the customer relationship.

Benefits

Eliminate Misunderstandings

By taking responsibility for warranty registration, you ensure that your customer's equipment is properly covered, minimizing the risk of misunderstandings or potential warranty-related issues in the future.

Enhanced Customer Experience

Offer a superior customer experience by sparing your customers the hassle of handling warranty registration

Access Unit Replacement Coverage

For eligible dealers, unit replacement coverage will automatically be applied, adding an extra layer of protection and value for your business.

SystemShield™ Labor Coverage

Take advantage of the opportunity to purchase SystemShield™ labor coverage, safeguarding your business from potential labor costs down the line.

Claim Financing Rebate

Utilize the warranty registration process to claim your financing rebate during the promotional period.

After each sale, visit **AlliedAirRegistration.com** to register products for the extended parts warranty, Unit Replacement Program, SystemShield™, Radius Mail, and consumer financing rebate.

WARRANTY REGISTRATION

10-YEAR WARRANTY REGISTRATION & 90-DAY LABOR ALLOWANCE:

Allied Air's 10-year extended warranty is a big deal for homeowners and dealers alike. All our residential equipment comes with a 5-year limited warranty out of the box. However, if you register the unit/system online (www.alliedregistration.com) and click on the "I'm a Dealer" link, the limited parts warranty is extended to 10-years completely free of charge (for residential, single family dwellings). By using the "I'm a dealer" link you will also give access to register the equipment for the System Shield Extended Warranty you sold to the homeowner. You may also trigger a Radius Mail campaign. For ComforTeam and ProTeam dealers, this is where you apply the Unit Replacement Program. If the homeowner registers the equipment, they will not get access to these added benefits.

**LIMITED PARTS
10-YEAR
WARRANTY**

PRODUCT REGISTRATION*

Before you get started, just know that we'll need the following information from you:

1 Serial and model numbers for each piece of equipment you had installed.

(No worries, we'll show you where to find those if you're not sure where to look)

2 If your home is new construction, you'll need the date you closed on your home purchase.

3 If your home is NOT new construction: date of installation + name and address of the dealer/contractor who installed your equipment.

***** In some circumstances, you may need to provide: serial number's, model number's and brand name of other equipment components in your system.
