BLACK SHIELD™

INSULATED LINESETS
by CerroSet®

Ultimate Protection for a Premium Lineset!

CerroSet Black Shield copper linesets feature high-quality thermal insulation that is moisture-resistant and UV-resistant – with an added durable protective jacket. It's the perfect insulation for the industry's highest quality linesets.

BLACK SHIELD ADVANTAGES:

SUPERIOR INSULATION

Black Shield Insulation consists of an ArmaFlex® insulation core that is flexible and works well in all environments.

ULTIMATE PROTECTION

Durable polymeric protective jacketing with a UV durable outer covering resists damage due to sunlight and other outdoor hazards, including line trimmers used for lawn maintenance - 5-year limited warranty.

CODE COMPLIANCE

Meets the requirements of the International Energy Conservation Code (IECC) for protection of insulation installed outdoors. Meets ASTM E84 for Smoke and Fire (25/50). Operating Temperature Range: -70°F to +220°F ASTM C534.

CERRO ADVANTAGE

Black Shield is available in various sizes and lengths for Standard and Mini-Split models. Please consult the price sheet for sizes. 100% made and assembled in the USA.

5-Year Limited Warranty!
(applies to insulation only)

Long-lasting protection from the elements...and so much more!
