Dryer Vent

Our galvanized dryer vents come equipped with a backdraft prevention flap. As the name implies, these items are generally used to vent clothes dryers. However, they can be used wherever a horizontal venting application is necessary.

- *Body constructed of 26 Ga. Galvanized Steel ASTM-A653-00*
- *SMACNA Standards.*
- *All gauges and reinforcements are in compliance with 2005 SMACNA standards for duct fabrication.*
